9F Filinvest One Building, Northgate Cyberzone, Alabang-Zapote Road Corner
Northgate Avenue, Filinvest City, Alabang, Muntinlupa 1781, Philippines.

Back printed area : 125mm x 175mm (W x H)

Directions For Use

Level field properly. Irrigate ricefield to allow snails to surface out and maintain a 3 cm depth of water. Spray KENSAMIDE 700 WP at 350 gram per hectare. Do not irrigate further for at least 48 hours. Follow standard irrigation practice after this treatment.

Crops	Pest	Grams product/ load	No. of tank load/ha
Rice	Golden Apple Snail	35g (1 sachet)	10

Frequency & Method Of Application

Spray KENSAMIDE 700 WP during a high level of infestation between 0-15 Days After Seeding / Days After Transplanting.

Mixing

Pour the required amount of KENSAMIDE 700 WP in a sprayer tank partially filled with water and stir. Fill the tank with the required amount of water and mix well.

Re-entry Period

48 hours after spraying.

Compatibility

Do not mix KENSAMIDE 700 WP with other products.

Precautions

Store tightly in its closed container. Keep away from foods and feedstuffs. Do not allow the product to come into contact with skin and wear waterproof protective clothing including boots and gloves. After spraying, wash hands and contaminated parts of the body thoroughly with plenty of soap and water. After use, clean all spray equipment thoroughly with water. Bury empty containers. Do not allow the chemical or container to contaminate sources of water. This product is toxic to fish.

BABALA: Iwasan na makapasok sa mga mata ang alikabok o tilamsik nito. Kung madikit sa balat, hugasan ng maraming tubig at sabon ang lahat ng parte ng katawan na naapektuhan ng kemikal. Kung makapasok sa mata, padaanan ng maraming tubig sa loob ng 15 minuto at dalhin sa doktor. Maghugas ng kamay bago kumain at pagkatapos ng trabaho. Hugasan maigi ang lahat ng kasangkapang ginamit sa pagbobomba. Huwag hayaang maapektuhan ng kemikal o ng sisidlan nito ang anumang pinagkukunan ng tubig. Ang produktong ito ay nakalalason sa isda.

Symptoms Of Poisoning

Ataxia or uncoordinated movements, staggering, dyspnoea, and vomiting. If eye contact occurs, the conjunctiva will redden and swell.

First Aid Treatment

If on Skin: Remove contaminated clothing and wash affected areas thoroughly with plain soap and water.

If on Eyes: Hold eyelids open and flush eyes with clean running water for at least 15 minutes.

If Inhaled: Remove from the contaminated area and bring to fresh air. If breathing has stopped, apply artificial respiration.

If swallowed: Give 1/2 glass of water to drink. Induce vomiting by tickling the back of the throat or pressing the back of the tongue with a finger. Repeat the procedure until the vomited fluid is clear. Never give anything by mouth to an unconscious person.

GET MEDICAL ATTENTION IMMEDIATELY.
